LIFESAVING CLASS

Mr. Everett R. McCullough of the Southeastern Massachusetts Heart Association, furnished a course of instruction in resuscitation and closed chest heart massage to the Mattapoisett Police Department on Thursday night at the Town Hall. Mr. McCullough spoke of the importance of these two life saving techniques and of the results which are being achieved. On the spot diagnosis and prompt action is absolutely vital in cases of respiratory failure since permanent brain damage can result if the brain is deprived of oxygen for a period of over 4 minutes. Various methods of resuscitation have been employed over the years but now the most effective method known is the mouth to mouth technique where the rescuer inflates the victim's lungs by blowing air into the mouth. Many heart attack victims need prompt help in clearing their air passage and may need resuscitation. Mr. McCullough said that the heart association is conducting classes over the whole area in these techniques. He also spoke of the work of the heart association on the rehabilitation of stroke victims. He said that the stroke therapy pilot program at St. Luke's Hospital is a prime example of the help which can be given stroke patients immediately which can lead to their more prompt recovery. The program puts the patient through a process of therapy to keep their muscles in condition and to teach the patient to relearn the control of their limbs. This program has been very successful and is budgeted at $35,000.00 of which the Southeastern Massachusetts Heart Association furnishes $10,000.00 which, of course, comes from contributions made to the Heart Fund by people of this area.

After Mr. McCullough completed his introduction, an excellent film was presented which showed real life situations in which the resuscitation and heart massage became necessary and was applied. After the film, Mr. Mc Cullough introduced Dr. George Watson of Marion. He said that Dr. Watson is one of the many doctors who donate their time to teaching proper methods of lifesaving technique to police departments and to whom the Heart Association is very grateful for these services. Dr. Watson said that he and other doctors owe much to the prompt and efficient action of the police in the moving of patients to hospitals and many other assistances, and for that reason he was glad to help in these classes. Dr. Watson then demonstrated on the dummy victim to show the proper hand placement and pressure for the heart massage. He showed the various pulse check points and went into detail on how

Dr. George Watson of Marion demonstrates the proper method of closed heart massage to Mattapoisett Chief of Police Alden Kinney.

and when to apply these methods. He demonstrated how to clear the victims' respiratory passage by the tilting back of the head. After the talk and demonstration by the doctor, the members of the police department took their practice turns over the "patient" under the supervision of Dr. Watson.

It should be noted that the doctor, taking time out from his busy day, was teaching police officers, who were appearing on their own time, in order to learn how to save lives. This interest and application of effort may well save someone's life in the future.

CATHOLIC WOMAN'S CLUB MEETING

The Catholic Woman's Club of Marion held its monthly meeting November 15th at the Sippican Woman's Club. Mrs. Robert Johnson presided. Rev. John Smith opened the meeting with a prayer.

Following the business meeting, Mrs. Robert O'Brien, club secretary, demonstrated the making of an Advent Wreath which is used in the four weeks preceding Christmas to remind of the coming of Christ. It is usually a circular frame, symbolizing the never ending of God, with greens placed on it, symbolizing the never changing of God, and placed on the frame are four candles. Three candles are purple and one pink. The pink one is used on the third Sunday to remind one that Christ's coming is quite near. On Christmas Eve the Christ candle is placed in the middle of the wreath and it stays lit all night in order to light the way for the Holy Family. The Advent Wreath is an old tradition and a cherished one in many families. Mrs. O'Brien states she will answer any questions concerning the wreath and its use for anyone interested.

A social hour followed with refreshments served from a lovely table by Mrs. William Barnes, chairman; and Mrs. Arthur Hickey.

These have been assembled by Eleanor Sayre, Assistant Curator of the Boston Museum of Fine Arts, and were exhibited at this museum in 1961. They will show not only the commonly represented aspects of the nativity theme, but also elements less common, such as the ancestry of Jesus and Herod's at-

It was a fine exhibition of team work and well received by the fine attendance.

Gifts of appreciation from the Junior Grange were presented by the master, Wayne Sylvia, to the members of the installing suite. A past master's jewel was presented to William Sylvia by Mrs. Mildred LeBaron for the good work and leadership he has given to the Grange. The jewel was pinned on by his mother, Mrs. William Sylvia.

Honored guests were Clayton Westgate, a member of the State Youth Committee; and Joseph Mello, Subordinate master of Cotuit. Both expressed their congratulations and best wishes to the young people.

A social hour followed. Refreshments were served by the parents of the master, Mr. and Mrs. William Sylvia.

The Juniors will meet this Friday night, November 26th.

TALK ON BLINDNESS AT ORRHS

On Friday, November 5th, Mrs. Alfred Fletcher visited the Old Rochester Regional High School to speak with three eighth grade divisions about blindness, a topic they have been studying in English. Mrs. Fletcher worked as a singer under the name Jo Morra, in New York and Boston. She has entertained several times on television with Vincent Lopez and Art Mooney and recorded for Top Ten records. Now the mother of two daughters, she is the wife of Alfred Fletcher of 392 Shore Road, Monument Beach, Massachusetts.

As the students were somewhat familiar with the topic through their work, Mrs. Fletcher centered her discussion around a theme which would interest them; ie., her education at the Perkins Institute for the Blind, in Boston. After a brief survey of the typical day in a blind child's life, questions were asked by

the students themselves. When asked about the possible speed of Braille reading, Mrs. Fletcher indicated that she had spoken from Braille notes, reading them at the same speed as a sighted person. She demonstrated various instruments tailored for use by the blind--as a thermometer, stove timer, Braille writing instruments and Braille books. Of special interest to the group was "Mini", Mrs. Fletcher's Labrador guide dog who delighted the audience with his quiet attention and regard for his mistress. The period proved far too short for the students who gathered around their guest at the close of the discussion to ask just one more question.

ART GROUP TO SEE EXHIBIT

The Fine Arts Group of the Mattapoisett Woman's Club will visit the Marion Art Center on Tuesday, November 30th, the opening day of an exhibit loaned by the Boston Museum of Fine Arts where it had a showing earlier. Arrival is planned at the Art Center for 2 o'clock.

Coffee and dessert at 12:30 at the home of Mrs. Albert D. Furnans, Water Street, will precede the event. Those attending will kindly give Mrs. Furnans advance notice that she may be prepared.

Mrs. Minot D. Eaton, distinguished director of the Marion Art Center, created a great deal of enthusiasm by the talk which she gave to the members of the Fine Arts Group at the home of Mrs. Charles A. Adams, and of which the forthcoming visit is the direct follow-up. That an art gallery so near has on its Advisory Board such authorities as Perry S. Rathbone, director of the Boston Museum of Fine Arts, and Philip Hofer, of Harvard, famed for his knowledge of the Graphic Arts, gives evidence of the standards Mrs. Eaton combines with her imaginative leadership.

Mrs. Eaton described the exhibit opening November 30th as combining etchings and woodcuts covering several centuries. They are seasonal, representing aspects of the The
